

**University of Idaho – Bonner County Master Gardener Volunteer  
Recertification Agreement for 2010**

I understand that this agreement is to recertify me as a University of Idaho Master Gardener. Upon completion of these requirements, I will automatically be certified as a Master Gardener. In signing this agreement, I agree to the following:

1. Complete by September 30, 2010, at least 18 hours of volunteer service.  
18 hours of volunteer service divided as follows:
  - 9 hours of plant clinic service at the Bonner County Extension Office or approved satellite location(s)
  - 9 additional hours in any category

I understand these are the minimum standards for recertification and I can be involved in more than 18 hours.

2. If I am unable to meet these requirements, it is my responsibility to renegotiate these terms with the Extension Educator prior to the September 30 deadline.

3. As a University of Idaho Master Gardener I serve as a representative of the University of Idaho Extension. I agree to abide by the regulations of the University of Idaho Extension, as defined in the Master Gardener Handbook. Information given out by Master Gardeners must be accurate, current, and research-based. I agree to give University of Idaho pest control recommendations even if they include synthetic chemical pesticides. The University of Idaho will assume liability for my pest control recommendations, but only if the control measures are approved by the University of Idaho for home and garden use, and are listed in University of Idaho Extension approved publications.

This is not a binding legal document. The intent is to create a mutual understanding between myself and the Extension Educator, as to what is required to retain my status as a certified Master Gardener. If I do not return this agreement, it will be interpreted to mean I am not interested in recertifying as a Master Gardener in Bonner County.

---

If you agree to the terms above, please complete and return the signed for **October 31, 2009**, to the Bonner County Extension Office, 4205 North Boyer, Sandpoint, Idaho 83864, so we can begin scheduling activities for the 2010 gardening season.
