Locate and Describe each Field on Your Operation

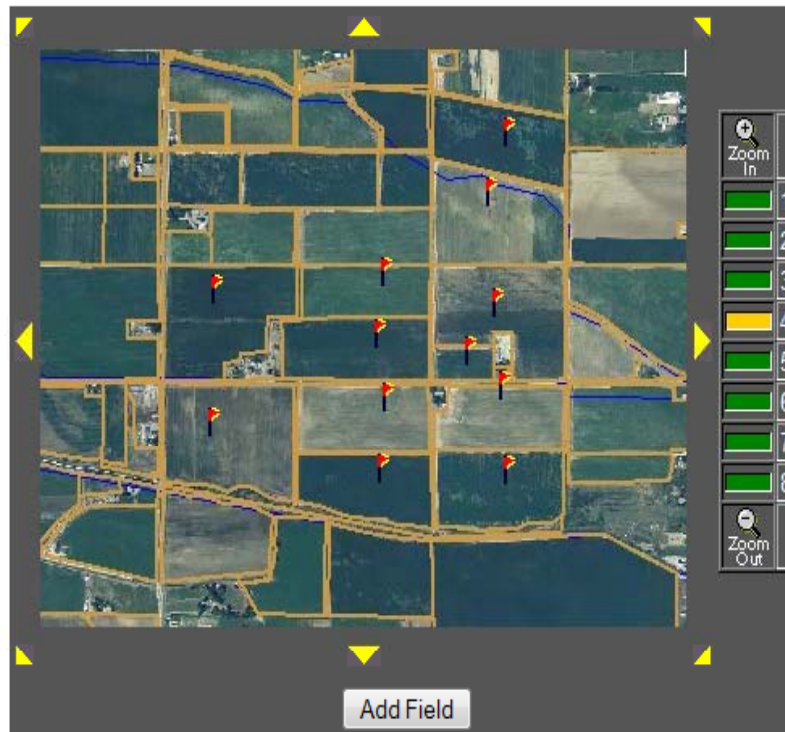

You are logged
in as Wayne
Newbill

[Operation Summary](#)

Locate and Describe your Fields

1. Move (pan) the map with directional arrows (▲) and zoom (🔍) until your fields are visible.
2. Click on the center of a field to select it. A Pin (📌) will mark your selection. To change the pin's location, just click a new spot on the map. (Any zoom button will re-center the map on the pin location.)
3. When the pin is where you want it, press [Add Field] and enter a name and the acreage for the field. (The button shows at Zoom 1-4 levels only).
4. Repeat for each of the fields in this Farm Unit. Follow the link at the bottom of the page to finish the operation setup.

Fields that you have already described are marked with a Flag (🚩). Click on flags to edit the field name or acreage.
