**PRACTICAL, PROBLEM-SOLVING EDUCATION**

To better meet the educational needs of north central Idaho residents, UI Extension faculty specialize and work across wide geographic areas. The profiles at right highlight the specialties of UI Extension faculty located in the NCIA, which includes five north central Idaho counties—Latah, Clearwater, Nez Perce, Lewis, and Idaho. Please contact the appropriate educator in topics of interest to you.

Help us to better serve you by filling out the attached form and mail or bring it to the county office nearest you.

**University of Idaho North Central Idaho Area (NCIA) Extension Faculty**

 David Barton—Agricultural Technology and Cropping Systems  
David provides education in the integration of emerging technologies—GPS, remote sensing, direct seeding—into crop production systems. David is in Moscow with the UI Latah County Extension, 208.883.2267, dbarton@uidaho.edu.

 Randy Brooks—Forestry and Youth  
Randy provides education in forestry, natural resources, and general agricultural topics to all audiences. Randy is also involved in 4-H/Youth development. He is in Orofino with the UI Clearwater County Extension, 208.476.4434, rbrooks@uidaho.edu.

 Jim Church—Animal Science and Youth  
Jim provides education for commercial livestock producers. Specialties include beef cattle production, marketing, and management. Jim also manages the 4-H animal science program for Idaho County. Jim is in Grangeville with the Idaho County Extension, 208.983.2667, jchurch@uidaho.edu.

 Ken Hart—Farm Financial Management; 4-H and Youth Development  
Ken leads NCIA educational efforts for farm financial management education. He is also involved with crop production management, policy education, smaller acreage programs, and 4-H/Youth development. Ken is in Nezperce with the UI Lewis County Extension, 208.937.2311, khart@uidaho.edu.

 Mary Schmidt—Community Capacity Building  
Mary provides education and technical assistance in leadership development, strengthening organizations, and after-school/youth programs. Mary is in Grangeville with Idaho County Extension, 208.983.7951, mschmidt@uidaho.edu.

 Larry Smith—Plant Pathology and Professional Applicator Training  
Larry provides research based education in plant pathology, professional applicator training, and cropping systems. Larry is in Lewiston with the UI Nez Perce County Extension, 208.799.3096, lsmith@uidaho.edu.

 Kathce Tiff—Family and Community Development  
Kathce provides education in family well-being, leadership development, and aging issues. Currently, she is conceptualizing, mapping, and providing programming for elder-friendly communities in rural Idaho. Kathce is in Lewiston at the UI Nez Perce County Extension, 208.799.3096, ktiff@uidaho.edu.

 Julia Welch—Family Resource Management, Food Safety, and Nutrition  
Julia provides educational programs for families on money management, nutrition and health, food safety, and aging related issues. Julia is in Grangeville with the UI Idaho County Extension, 208-983-2667, jwelch@uidaho.edu.

University of Idaho Extension helps people improve the social, economic, and environmental qualities of their lives through practical, research-based education and leadership development focusing on issues and needs with:

- Diverse, highly qualified, faculty and staff;
- Well-trained volunteers;
- Two way interaction between the University of Idaho and local people
