

## Target Audience

This education program is intended for western dairy producers, agricultural professionals and law makers from county and state agencies, soil and water conservation districts, NRCS, state cooperative extension, and regulatory agencies.

## Objectives

To educate the target audience on pertinent air quality issues in the region and the BMPs available to livestock producers to mitigate the impact of their operations.

To offer science-based information regarding applicable air quality measurement techniques and educate the audience regarding applicable laws in Idaho.

## Presenters

SARE program presenters from different universities are among the best in their area of expertise in the USA.
