

Soft White Winter Wheat & Spring Feed Barley On-Farm Demonstration Strips Bert Henriksen Farm—Tammany 2007

Grower: Bert Henriksen
 Field Location: Tammany, Idaho
 Plot strip size: 680 ft. long X 50 ft. wide
 Large, non-replicated variety strips.
 Harvest date: July 10, 2007
 Rotation: Summer fallow—harvested on summer fallow fields

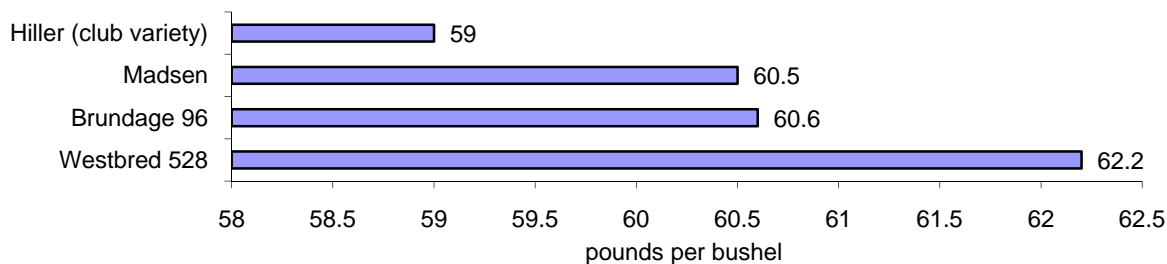

Variety	Yield bu/ac	% Protein %	Test Weight lb/bu
Soft White Winter Wheat			
Madsen	105	12.1	60.5
Westbred 528	96	11.2	62.2
Brundage 96	86	11.4	60.6
Hiller (Club variety)	80	10.5	59.0
Spring Feed Barley			
Spaulding (2% thins)	3,120	NA	52.2
Baronesse (2% thins)	2,894	NA	52.0

Strip trial yields were different on another part of the farm with different rotation sequence and rainfall level. Hiller club wheat yielded best on a different rotation, rain fall area of farm.
